

A Parent's Guide:

Our Learning Power Approach Culture in Year 3

Our Learning Environments

- Some displays show work in progress, not just the final product.
- Displays aim to strengthen learning habits. e.g. know what to do when they are stuck, how to improve their work.
- Children are encouraged to broaden their language by using the Working Walls.
- Children are encouraged to become independent and use the classroom displays to help them.

Teaching and Learning

We encourage children to be in the 'Learning Zone' by:

- Feeling comfortable to make mistakes
- Understand that making mistakes is part of learning
- Grappling with challenging problems independently and in groups.
- Allowing children to become 'mini-teachers' and offer support and feedback to their peers.
