Dear Parent/Carer

As part of our Science topic on *Animal Groups*, we are excited to welcome some special visitors to our Year 1 classes!

On Thursday 14th May, children will participate in a variety of fun and active activities, whereby a selection of animals and reptiles will be brought into school for children to see and talk about. This hands-on experience will help the children learn more about different animal groups such as mammals, reptiles, birds, and amphibians. The children will have the opportunity to see some animals up close and learn about their features, habitats, and how they are cared for.

This visit will support our learning in a fun and engaging way, helping the children to better understand and remember what they have been taught in class. **There will be no cost for this activity, all charges are being covered by the school.**

If you have any concerns, particularly regarding allergies or phobias, please do not hesitate to contact your class teacher on Dojo.

We are really looking forward to this exciting experience!

Many Thanks,

Year 1 Team

**'Equality, Active Learning, Community, Health & Happiness'**
