Exclusion Statement

At Battling Brook Primary School it is our intention to provide all children with the opportunity to work and play in a safe secure environment enabling all teachers to teach all children to learn.

Children whose behaviour is causing concern are the children who regularly fail to respond to the expectations set out in the Whole School Behaviour Policy. At this stage the class teacher should alert the Head Teacher to these concerns and a decision should be reached about the best course of action to be taken.

Teachers of the younger age groups need to be aware that the Whole School Behaviour Policy is there to support all children and to act as a deterrent to all children who regularly breach reasonable expected standards. The school has chosen to adopt the ESFA guidance for Exclusions for academies, procedures outlined below should be followed.
